Nobel Laureate Watson to Join in a Tribute to Our "Unseen" Scholars

Watson

Botstein

Alberts

Nobel Laureate James Dewey Watson, PhD, director of Cold Spring Harbor Laboratory, New York, will help pay tribute to UCSF's 1,000 "unseen" scholars—our postdoctoral researchers—at a panel discussion on Tuesday, January 31, at 3:30 p.m. in Cole Hall.

Joining Watson will be David Botstein, PhD, vice president of science at Genentech, and Bruce Alberts, PhD, UCSF chair, biochemistry/biophysics, who organized the discussion.

Moderated by Chancellor Krevans, the discussion is open to anyone, but will be geared to the postdocs to describe how best they can position themselves for a successful future in research.

Watson shared the Nobel Prize in Physiology or Medicine in 1962 for his discovery of the double helix structure of DNA. He has directed Cold Spring Harbor since 1968 and has turned it into a "postgraduate" university for DNA research. He will discuss "Genome Projects and the Future of Biology."

Prior to his position at Genentech, Botstein was professor of genetics at MIT. His major research has focused on genetics to analyze cell biology in yeast and to discover ways to use human proteins as pharmaceuticals. He will discuss "The Industrial Alternative."

Alberts will discuss "Grants and the Peer Review Process." He recently was appointed to head the Commission on Life Science of

(continued on page 2)

Norbeck is New Nursing Dean

Jane S. Norbeck, DNS, has been appointed the new dean of the UCSF School of Nursing. Her appointment will be effective April 1, 1989, following UC Regents approval at their meeting on January 19.

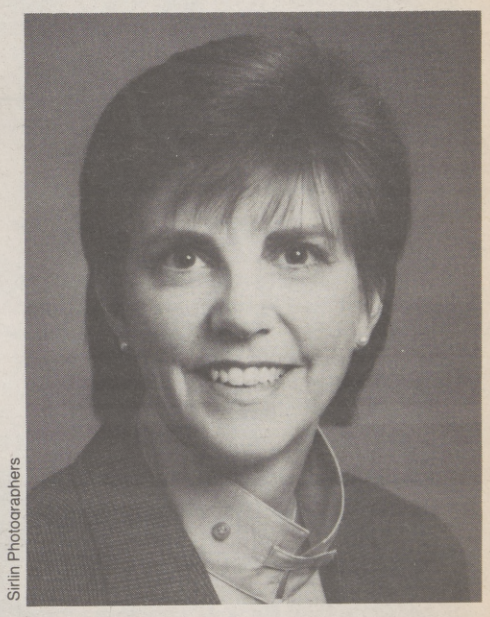

Norbeck has been professor of nursing and chair of the Department of Mental Health, Community and Administrative Nursing since 1984. She is internationally recognized for her research, particularly for her study of the concept of social support for pregnant women, single parents, critical care nurses and family caregivers of the mentally ill.

Norbeck is the founder of an international social support research group and currently is organizing its meeting in conjunction with the 1989 Quadrennial Congress of the International Council of Nurses in Korea. Her "Norbeck Social Support Instrument," a research questionnaire, has become a standard for investigators in nursing and other health sciences around the world.

Her recent research has included a two-year project funded by NIH, on predictors of pregnancy complications among lower socioeconomic status women, and a state-funded study on clerical workers facing multiple role stress.

Norbeck became a fellow of the American Academy of Nursing in 1984. She was the 1988 UCSF Helen Nahm Research Lecturer and has been honored for her distinguished teaching by the UCSF Academic Senate. She joined the UCSF faculty in 1975.

An invitational evening banquet, with speaker astronaut Sally Ride, will welcome the new dean on Friday, April 28, in conjunction with the School's 50th anniversary. See a full story in the next issue of *Newsbreak*.

Dentistry Tops at 78.6% United Way Participation; SAC Drive Nets 2.5 Tons of Food

The School of Dentistry had the highest participation rate ever for this campus in the last United Way Campaign. It achieved a rate of a whopping 78.6%. That's more than double the School's performance last year!

Coming in a very close second was the School of Nursing with a most impressive 74.5%. Campus administration followed with 58.7%, the School of Pharmacy with 56.8%, the Medical Center 39.3%, and the School of Medicine 25.9%.

The campaign showed overall campus participation at 40%, which translates into some $238,000 donated to United Way.

Meanwhile, 28 full barrels of food—2½ tons worth—were collected during the recent Holiday Food Drive sponsored by the campus Staff Advisory Council.

Chancellor Krevans and Dean Goyan have asked *Newsbreak* to run a letter expressing their thanks to the campus community for their participation in these two very successful campaigns.

"Dear Members of the Campus Community:

"Last October we sent a letter to all faculty and staff at UCSF requesting full participation in our 1988 UCSF United Way Campaign. Thank you for responding so generously. We can be proud of having achieved over 40% participation campus-wide.

"With your help and the contributions of thousands of our neighbors, the United Way is able to provide support to hundreds of health and human care service agencies throughout the community, touching the lives of thousands of people. Your participation counts, and we appreciate it.

"We also thank you for your generous contributions to the recent Holiday Food Drive, sponsored by SAC, which brought 2½ tons of food to help feed the needy people all over San Francisco. Without your help, soup kitchens, emergency shelters and child care programs would not be as strong as they are now."

Sincerely,

Julius Krevans

Don't Toss Them . . . Recycle Those White Sheets

Computer operator Paul Vellutini (left) breaks up at the creative way his pals in the Computer Center have of tossing paper into their recycle bin. Making sure there are no styrofoam cups, cardboard boxes or general nasties are Bob Falcone (center) and senior custodian Huguette Pratoussy.

You no longer will have to feel guilty about throwing out all of your paper, destroying all of those trees, and being a very wasteful person. Because starting Wednesday, January 18, you can recycle!

After successfully collecting all of the old telephone books on campus, our Physical Plant Department is ready to embark on yet another recycling project: Collecting high grade waste white paper. High grade white is the type of paper used in your computer, copy machine, ledger, etc.

"This means in order for our recycling project to work," says senior superintendent Bob Falcone, who heads all recycling on campus, "people will have to separate this 'high grade' paper from general refuse." Bob goes on to explain that all employees should place their paper for recycling in special containers near their desks, work stations or copy machines, then once a week custodians from Physical Plant (and in the case of the Medical Center, Environmental Services) will empty the containers of paper into

(continued on page 2)

The Real NOISE!!! Starts Now

Just when you thought the construction of our new library was so quiet, hardly noticeable, what should happen? Noise. Loud noise. And lots of it.

Assuming the weather cooperates, starting Monday, January 16, the steel for our new library (which is coming from Colorado) will be put into place. What that means is practically wherever you are, whether on Third Avenue, Irving Street, or Parnassus, particularly in Clinical and Medical Sciences and the west wing of Millberry, you will be able to hear alot of loud clanging every weekday from 7 a.m. to 3:30 p.m. through the month of June.

(continued on page 2)

Please Give a Few Drops Jan. 24

The next campus blood drive will be on Tuesday, January 24. Donation sites will be in the main lounge of Millberry Union from 8 a.m.-3 p.m., and the mezzanine level of the School of Nursing building from 9 a.m.-5:30 p.m., as well as the Hartsook Room at CED from 9 a.m.-4 p.m. CED also will collect blood the following day during the same hours. Please bring personal ID to all locations.

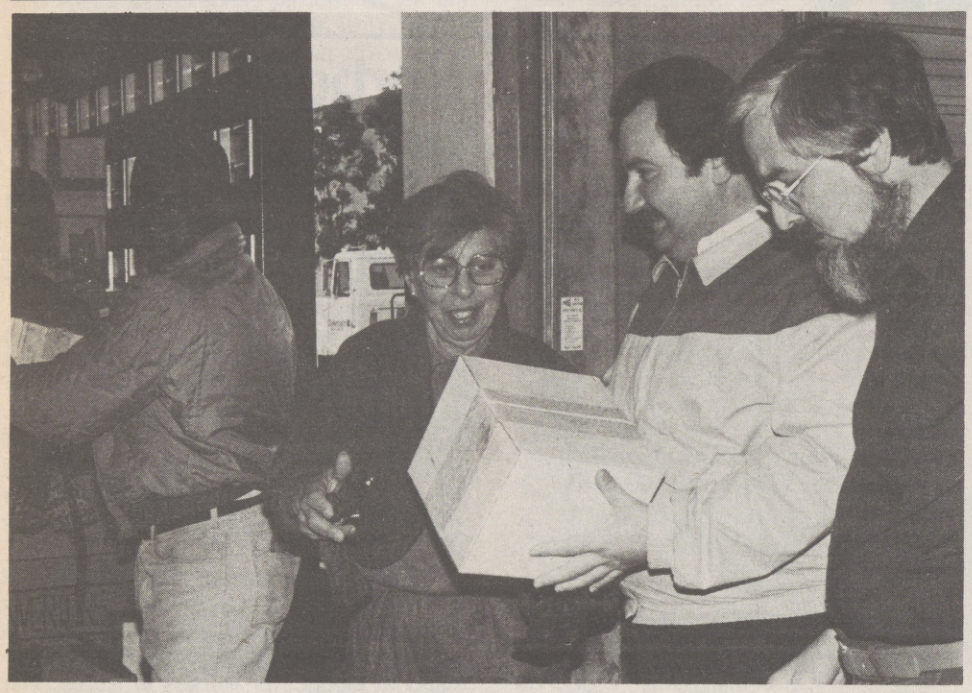

Blood donation raffle prizes—a pair of gift certificates for $50 each at the Washington Square Bar & Grill, will be donated by the Associated Students of UCSF and the restaurant.

The alumni associations of the Schools of Dentistry, Pharmacy and Medicine will stage contests between classes of students, with cash prizes going to those classes donating the most blood. The School of Nursing Alumni Association will conduct a similar contest between divisions of the school.

The October campus blood drive yielded 239 units of blood from the Parnassus campus and another 49 from CED. Dental students Guy Fox (third-year) and Paul Bianchi (second-year), as well as Bridget Price of the LPPI business office at CED were the big raffle winners with $50 gift certificates at the Washington Square Bar & Grill.

In school competition: First place went to the second-year classes of the Schools of Dentistry (including Dental Hygiene) and Medicine and the first-year class of the School of Pharmacy. Mental Health, Community & Administrative Nursing took first in the School of Nursing competition.

Campus blood drives are sponsored by the Irwin Memorial Blood Bank and coordinated by Campus Tours/Speakers Bureau. The CED drive was sponsored by the UCSF Council. For further information call the UCSF Blood Bank at x64013.

Helping Hands for Armenia

Many hands made light work as Armenia relief workers packed up goods donated by UCSF. Pictured in the line-up are (left to right) Sylvester Williams from the Salvation Army, Louise Melikian from Campus Tours/Speakers Bureau, Varant Kasparian from the Armenian Relief Society, and Materiel Management's Phil Canevari, who coordinated the drive. Donating departments included Materiel Management, Materiel Services, Nutrition & Dietetics and OR Supply. For further information on the UCSF Armenian Relief Group, call Louise at x64394.

"Shapedown" Can Help Overweight Teens

Every day teens face conflicting messages from society: Thinness is promoted as an important part of popularity, yet there are more calorie-dense "junk" foods available than ever before. More teens have become less fit over the last several years, many obese.

"Shapedown" can help. This is not a diet, but instead a weight management program for youngsters from 14-18 who need to make changes in how they eat, what they eat and how much they exercise.

The first orientation for teens and their parents will be Wednesday, February 1, from 4-5 p.m. on the second floor of the ACC, Rm. A 267. Teens then will meet every Wednesday for 12 weeks from 4-6 p.m. Parents will meet every other Wednesday beginning February 15 from 5-6 p.m.

To receive a registration form and additional information call the Adolescent Medicine Office at x62184. A similar program is offered for children, ages 6-13. For further information call Laurel Mellin, x61482.

Chancellor's Award for Exceptional University Service

Nominations are being accepted for the 1989 Chancellor's Award for Exceptional University Service. All current staff employees and those who retired in fiscal year '87-88 and '88-89 are eligible if they have been at the top of their salary range for five years or more as of July 1, 1988 and consistently performed in their positions at a level beyond what is ordinarily expected.

Nomination forms and a list of criteria were mailed last week to the campus community. Additional forms are available from Fred McEnroe at x65186. Completed forms are due in Room S 24, Box 0402, by Monday, February 6. Six individuals will be selected to receive the award at Founders Day on Thursday, April 6.

Women's Wheelchair B'ball Photo Exhibit

An exhibit of Joan Bobkoff's photographs of the Bay Area Meteorites, a local women's wheelchair basketball team, is on display in the School of Nursing third-floor lobby through February 21. The exhibit is being sponsored by the Visual Media Project, Department of Family Health Care Nursing. You also can see the Meteorites in action as they host a West Coast tournament at SF State, Saturday and Sunday, January 21 and 22. For further information call 849-4663.

Sign Up for Women's Poetry Reading

The annual UCSF Women's Week Poetry Reading this March will feature Joanne Kyger. If you are a UCSF woman faculty member, employee or student, and would like to read, call Leslie Simon at x65222.

Recycle *(continued)*

large green plastic receptacles especially designed for this recycling purpose.

Ruth Weiller, senior administrative analyst, is one employee who has carried out a mini-recycling program in the Chancellor's Office for the past two years, and welcomes the campus-wide effort. Ruth says, "I always thought there was a fair amount of interest in recycling on this campus. A lot of environmentally-concerned people already recycle at home, and many UCSF employees get very frustrated watching reams of paper disappearing into the trash daily. Now, we can do something about it!"

Falcone restates, "The real key to a good recyling program is to keep the trash, plastic food containers, magazines, and cardboard separated from the paper that you want to recycle."

If you have any questions, call x62021.

David Powers

Teaching the Japanese About AIDS

Pathologist Elizabeth Donegan (right) greets Hiroko Sagara, chief of infectious diseases at Toshima Hospital in Japan, during a December 16 visit to UCSF.

Sagara was a member of a Tokyo delegation sent by Japanese health authorities to learn more about how we manage the clinical, social and research aspects of AIDS. Girish Vyas, director of our Transfusion Research Program, hosted the delegation, which included Yoshio Matsubara (center), president, Tokyo Metropolitan Kodaira Health Center, and Komagome Hospital infectious disease expert Masayoshi Negishi (not shown).

While on campus the delegation met with medicine department chair Richard Root and Drs. Paul Volberding, Edward Murphy, Andrew Moss, John Krowka, James Scillian, John Ziegler, John Greenspan, Matija Peterlin, Jay Levy, David Werdegar and Warren Winkelstein.

Japan has a total of 90 cases of AIDS with 50 deaths, and has detected nearly 1,050 HIV carriers. As Dr. Vyas says, "They are where our campus was in 1982."

Also not shown in the above photo are two other members of the delegation, who at the time were touring our SFGH AIDS wards.

Postdoc Tribute *(continued)*

the National Academy of Science and is well known for his studies of the enzymes that copy DNA when a cell divides.

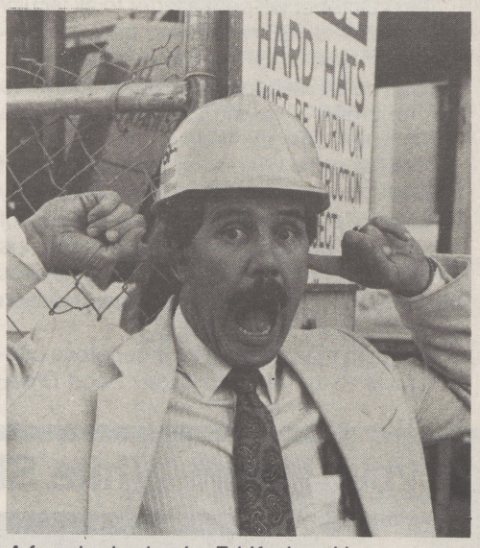

We have nearly 1,000 postdocs on campus. These men and women are often hidden from view, but still their numbers have increased at least 15% every year. They are "the backbone of UCSF research," according to Chancellor Krevans. "The virtuosos of scientific inquiry," as described by Graduate Dean Kozloff.

Coming here from all over the world for advanced training in a leading science or clinical department, they are in each of our four schools, representing a broad range of disciplines—from biochemistry to stomatology, psychiatry to nursing, pharmacy to cardiovascular research. Most are here doing science, but a few provide patient care.

They have their PhD or MD degrees already, but spend a few years doing research on campus through fellowships, training grants, stipends and the like, before being considered for faculty appointments. Many eventually become assistant professors, but as long as they are postdocs, they are freed from heavy teaching to do what they love best: research.

Because of the low pay, some postdocs feel exploited. "But," says Don Ganem, MD, former postdoc, now assistant professor, microbiology and medicine, "if you are in science because you love it, the postdoctoral years are the best. The lab is set up, the money is minimal but already there, you have no teaching obligations."

For further information call Carol Landa at x62401.

A foreshadowing by Ed Kozlowski

Library Noise *(continued)*

That's right. You will hear this earsplitting clanking for at least the next five months. And it won't be pleasant. "You know what it sounds like when the guy changes your tire and secures the bolts with a sort of riveting sound?" explains library project manager Ed Kozlowski. "Well, that's pretty much the principle of putting these steel beams together. But when that steel comes together, it's loud. Real loud."

Environmental Health & Safety will monitor the noise level daily, says Ed. He also adds that there might be some traffic disruptions on Parnassus during the five months as the steel continues to be delivered. "So," as Ed says, "please be patient, because we have a long, loud, disruptive time ahead of us."

UCSF Has Five of Most-Cited Papers

The campus has been recognized as having five of the most-cited papers in various fields of science. The analysis was in the December 12, 1988 issue of *Current Contents: Life Sciences* published by the Institute for Scientific Information. It showed that out of the 103 most-cited life sciences articles published in 1986, the US was the top country with 94 papers. Within the US, UC ranked third with 7 papers (5 at UCSF, 2 at UC-Berkeley). NIH was tops with 12, Harvard second with 11, Yale fourth with 6 papers.

UCSF *Newsbreak*

UCSF (ISSN0891-6063) Volume 4, Number 1, January 14-27, 1989. Published by the University of California, Third and Parnassus, San Francisco, CA, 22 issues per year—biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to *UCSF Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

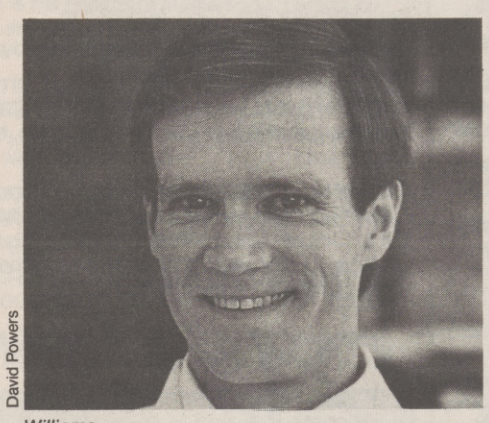

Deadline for the next issue, which will cover January 28-February 10, will be on Tuesday, January 17, at 11 a.m. Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch, and calendar and gazette items to Donald Hickerson, all at Box 0462. Last-minute copy can be taken over the telephone by calling x61541 or x62557.

Young

Robert Foothorap

Yuh Nung Jan

David Powers

Wycoff

Lewis T. Williams, professor, medicine, Cardiovascular Research Institute & Howard Hughes Medical Institute: Winner of an Outstanding Young Investigator Award of the American Federation of Clinical Research, the largest society for clinical research in the nation.

Lily Yeh Jan, Yuh Nung Jan, professors, physiology, biochemistry & Howard Hughes Medical Institute: Winners of the W. Alden Spencer Award & Lectureship of the Center for Neurobiology & Behavior, Columbia University. Lily spoke on "Molecular Studies of a Voltage-Sensitive Potassium Channel" and Yuh Nung on "Genes that Affect Early Neural Development in *Drosophila,*" Nov. 3.

John W. Severinghaus, professor, anesthesia: Elected honorary fellow, College of Anaesthetists of the Royal College of Surgeons of England.

Sol M. Shnider, professor, anesthesia & ob/gyn & reproductive sciences: Presented the 1988 Olof Norlander Memorial Lecture of the Swedish Societies of Medicine and Anaesthesiologists at their joint annual meeting in Stockholm, Dec. 1.

Jere E. Goyan, dean, School of Pharmacy: Presented the 1988 Albertson's Pharmacy Lecture at Idaho State University. He spoke on "The Risk of a No-Risk Society" in Boise, Oct. 26.

Lewis B. Sheiner, professor, laboratory medicine & medicine: Winner of the 1989 Rawls-Palmer Progress in Medicine Award of the American Society for Clinical Pharmacology & Therapeutics for his work on mathematical modeling and data analysis.

Stephen G. Young, assistant professor, medicine: Awarded the Irvine H. Page Arteriosclerosis Research Prize for Young Investigators by the Council on Arteriosclerosis of the American Heart Association for his work on apolipoprotein B mutations that affect plasma cholesterol levels.

Samuel J. Wycoff, professor, dental public health & hygiene; **John Ellis & Lawson Evans,** both 1987 School of Dentistry graduates: Honored by the Vesper Society, a service organization of the Lutheran Church, for their work in organizing the society's Trinidad Dental Program, which sponsors community health clinics in several Caribbean islands. Wycoff has been a consultant for the program for the past three years, and during 1987 organized and conducted several flouride mouth-rinse training sessions for clinics and private practices in Trinidad. Ellis and Evans both spent their first post-graduate year treating patients, managing clinics and training students at the Servol Trade Schools in Trinidad.

Roy A. Filly, professor & vice chair, radiology; chief, diagnostic ultrasound; professor, ob/gyn: Winner of the History of Medical Ultrasound Pioneer Award from the World Federation of Ultrasound in Medicine & Biology and the American Institute of Ultrasound in Medicine.

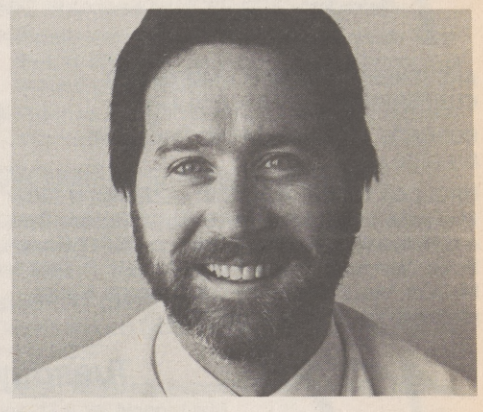

Support for AIDS Research

Funds now are available from the UCSF AIDS Clinical Research Center for researchers to begin AIDS pilot studies. The deadline for the first submission of applications is Thursday, March 30. The AIDS Clinical Research Center is supported by the state and coordinates campuswide AIDS research through a network of clinics and resources at our three teaching hospitals. For further information and application forms contact Director John L. Ziegler, VAMC, Room 141A, or call 221-4810, x3676.

Appointments

Cheng

Tomlanovich

Herbert

Kirkland

Yu-Tung Cheng: member, UCSF Board of Overseers. As chairman of Hong Kong's New World Development Co., Ltd. and president of the foundation which bears his name, he has been an important force in developing the Pacific Rim as a center for scientific and cultural exchange, trade and commerce. His projects range from tourist hotels in China and residential and commercial complexes in Hong Kong, to business and industrial projects in Vancouver and Houston. At UCSF, Cheng helped create and fund the Cheng Scholars Program, a joint effort of the University and the Ministry of Public Health of the People's Republic of China, which enables promising Chinese medical scholars to receive training in biomedical sciences research and clinical specialities at UCSF. Cheng received an honorary LLD from the University of Toronto in 1987.

Denly Herbert, associate director, UCSF Predoctoral Dental Clinic, SFGH. A 1980 School of Dentistry graduate, he served as an extern and staff dentist at the Buchanan Predoctoral Dental Clinic, 1980-82, and was appointed staff dentist and assistant clinical professor at the SFGH Predoctoral Clinic in 1982. He served as acting director of the clinic from 1987-88.

Stephen J. Tomlanovich, medical director, Acute Hemodialysis Unit. He came to UCSF in 1985 as instructor, clinical medicine, after a fellowship in nephrology at Stanford. In 1986 he was appointed assistant professor, and director, Transplant Service Research Laboratory and assistant director, Acute Hemodialysis Unit. He replaces Martin Cogan, associate professor, medicine, who has served as director since January, 1980. Cogan moves to the VAMC where will be chief, Division of Nephrology.

Mark D. Kirkland, assistant director, UCSF Buchanan Predoctoral Dental Clinic. An assistant clinical professor, he graduated from our School of Dentistry in 1983 as both a Regents and Fleming Scholar. He has been assistant clinical professor, stomatology and dental public health & hygiene since then. Kirkland won a 1987 Excellence in Teaching Award from the School of Dentistry graduating class.

In Memoriam

Donald T. Brown, associate clinical professor, psychiatry. He came to UCSF as a clinical instructor in 1954 and for nearly 35 years led process groups for psychiatric residents and supervised them in the practice of group therapy. He taught group therapy and group process for may Bay Area agencies, including Operation Concern and Lighthouse for the Blind. Brown actively participated in the National Training Laboratories, Grex and the American Group Psychotherapy Association (AGPA), in which he was a fellow. The Group Psychotherapy Foundation of AGPA has set up a memorial fund in his honor. Checks payable to the Group Psychotherapy Foundation may be sent to AGPA, 25 E. 21st St., 6th Floor, New York, NY 10010. For further information, call 212-477-2677.

Lomie J. Smith, key entry supervisor II, hospital information systems. She came to UCSF in 1959 as a key entry supervisor and held the position for more than 28 years until her retirement in February 1988. For a number of years she was an active member of the UCSF Martin Luther King Day Committee.

Martin Hill, registered respiratory care therapist I, respiratory care service, SFGH. He came to UCSF in 1981 as a therapist at the Parnassus campus and transfered to SFGH in 1983. He often gave classes, continuing education courses and case presentations to nursing personnel and other therapists. He was night service supervisor at SFGH from 1983-85. A long-time volunteer counselor for people with AIDS, Hill requested that donations in his memory be made to Shanti Project, 525 Howard St., San Francisco, CA 94105.

Publications

Evelyn Y. Lee, assistant clinical professor, psychiatry: Author, *Ten Principles on Raising Chinese-American Teens* (Chinatown Youth Center, SF, 1988).

Patricia E. Benner, associate professor, physiological nursing; **Judith C. Wrubel,** assistant clinical professor, family health care nursing: Authors, *The Primacy of Caring: Stress and Coping in Health and Illness* (Addison-Wesley, NY, 1988).

Melvin M. Scheinman, professor, medicine: Co-author, *Ablation in Cardiac Arrhythmias* (Futura, Mt. Kisco, NY, 1987).

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Pamela Corpuz, principal clerk, physical therapy.

Gilbert Fan, senior collection representative supervisor, accounts receivable.

Coral Garcia, senior radiation therapy technologist, radiation oncology.

Lesley Grizzell, administrative analyst, psychiatry.

Jacqueline Jackson, senior admitting worker, ACC registration.

Florence Lao, principal food service worker, CVRI/nutrition & dietetics.

Nancy Louie, principal clerk, accounts receivable.

Deborah Mason-Powell, administrative assistant II, School of Medicine Dean's Office.

Diana Mauch, administrative nurse I-supervisor, ACC.

James Munson, administrative assistant II, CRI.

Mary Nyce, academic staff assistant II, pathology administration.

Ida Tateo, programmer/analyst I, anesthesia.

Kristine Twining, administrative nurse II, ACC.

Israel Velez, storekeeper, materiel management.

Wendy Wolters, secretary II, mental health, community & administrative nursing.

17 Tuesday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

- Jan. 17-20: 1st Nationwide Bank, Third St. between Mission & Market. (Jan. 16 is a holiday.)
- Jan. 23-27: Marina Green parking lot, near the Goodwill shed.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Radioisotope Bone Scanning.* Robert Hattner, Radiol. C 701. 8 a.m.

MARTIN LUTHER KING'S VISION AT UCSF

BROWN BAG LECTURE SERIES: *UCSF Leadership's Role in Fulfilling Martin Luther King's Vision of Fostering Minority Excellence.* Anthony Wagner, Dir., Laguna Honda Hosp. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

RADIATION ONCOLOGY RESEARCH LABORATORY SEMINAR: *Mechanisms of Radiation Transformation In Vitro.* John B. Little, Radiol., Harvard. CED 200. Noon.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

PHYSIOLOGY/ENDOCRINOLOGY/CELL BIOLOGY/PHARMACOLOGY SEMINAR: *Molecular Dissection of Endocytic Receptor.* Kurt Drickamer, Biochem. & Molec. Biophys., Columbia. HSW 300. 4 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. L 1361. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

OPERATIVE UROLOGY CONFERENCE: *Scrotal Emergencies.* Richard Lyons, Uro. M 460. 4:30-6 p.m.

COMMUNITY HEALTH TALK: *Sickle Cell Anemia: What We Know Today About Diagnosis & Treatment.* William C. Mentzer, Ped. & No. CA Sickle Cell Ctr. UCSF-Laurel Heights. 7-8:30 p.m. Call x63206.*

19 Thursday

MEDICAL GRAND ROUNDS: *Care of HIV Infected Patients: The Rights & Responsibilities of Physicians.* Molly Cooke, Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Anesthesia & Ophthalmology: Newer Agents, Anesthetic Complications.* Martin S. Bogetz, Anes. & Surg Ctr. Case presentations: *Glaucoma.* S 214. 8:15-10 a.m.

PEDIATRICS GRAND ROUNDS: *Pathogenesis & Differential Diagnosis of Eruptions in the Diaper Area.* Ilona Frieden, Ped. S 664. 8:30-9:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Ergonomic Worksite Adaptation to Handicapped or Light-Duty Workers.* David Thompson, Engineering, Stanford. M 989. 9-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

PRIMARY CARE LECTURE SERIES: *Insulin Dependent & Non-Dependent Diabetes.* Martha Nolte, MRU & Med. A 455. 10 a.m.-noon.

ANATOMY SEMINAR: *Epithelial-Mesenchyme Interactions Controlling Differentiation of Normal & Transformed Keratinocytes.* Norbert Fusenig, Biochem., German Res. Ctr., Heidelberg. HSE 1309. 11 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

AIDS/HIV 1989—OVERVIEW & UPDATE: *Clinical Manifestations.* Harry Hollander, Med. Cole Hall. Noon-1 p.m.

ORAL BIOLOGY SEMINAR: *TGF-Beta.* Rik Derynck, Genentech. S 664. Noon.

PROCTOR FOUNDATION SEMINAR. S 318. Noon.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

CRI-HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Lupus Anticoagulant & Pregnancy.* Marc Shuman, Med. & CRI; Larry Corash, Lab. Med.; Russell Laros, Ob/Gyn. M 1296. 1 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

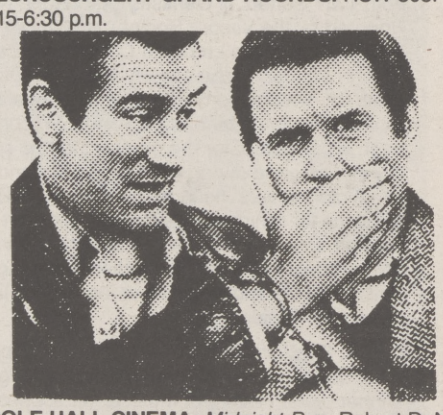

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Evaluation of Acute Foot Pain.* Joel Clark, Med. A 455. 4:30 p.m.

RADIATION ONCOLOGY CHAIRMAN'S RESEARCH CONFERENCE: *Oncology in the South Pacific & Other Observations of Antipodal Life.* L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *Strategies in Difficult Mammographic Cases.* James Brenner, Med., UCLA & Mammography, Cedars-Sinai Med. Ctr. HSW 301. 5:15-6:15 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 303. 5:15-6:30 p.m.

COLE HALL CINEMA: *Midnight Run.* Robert DeNiro & Charles Grodin comically pursued by the Mafia, the FBI & a bounty hunter. Children under 14 $2; UCSF students & employees, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A116. 6 p.m.*

20 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE: *Sylvia Brody's Longitudinal Developmental Study, with Infancy & Childhood Films & the Just Completed 20-Year Follow-Up.* Henry Massie, Psychr., St. Mary's Hosp. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *From Cells to Molecules: Development of New Microscopies.* Carlos Bustamante, Chem., U New Mexico. S 1364. 11 a.m.

EMPLOYEES & AIDS

Where Can Employees Turn when Touched by AIDS? Panel discussion with benefits & services representatives. Hartsook Rm., CED. Noon-2 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS SEMINAR: *Deepening Self-Esteem.* Jayne Page Doyle. N 517. Noon-1 p.m.*

21 Saturday

ORTHOPEDIC GRAND ROUNDS. Seton Med. Ctr. 8-9 a.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS. Pathology Aud., SFGH. 8:30-9:30 a.m.

LOW VISION FORUM: Journalist Susan Sobel-Feldman discusses her experiences with prisoners in Vacaville who read & record material for the blind. 374 Parnassus. 11 a.m.-1 p.m. For further information call Frances Neer at 626-5313.*

23 Monday

OTOLARYNGOLOGY GRAND ROUNDS: *Skull Base Tumors.* Michael J. Kaplan, Oto. *Lateral Approach to the Skull Base.* Robert K. Jackler, Oto. S 214. 8-10 a.m.

OVEREATERS ANONYMOUS MEETING: N 417. 12:10 p.m. Call Janet, x61504.*

PEDIATRIC UROLOGY CONFERENCE: *Neoplasms in Children.* Pierce Irby, Ped. M 460. 4:30-6 p.m.

24 Tuesday

CAMPUS BLOOD DRIVE

Blood may be given in MU main lounge, 8 a.m.-3 p.m. & School of Nursing mezzanine level, 9 a.m.-5:30 p.m. Also at CED Hartsook Rm., 9 a.m.-4 p.m. today and tomorrow, Wed., Jan. 25. Please bring identification. See story on page 2.*

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Resource-Based Relative Value Scale: Implications for the Oral & Maxillofacial Surgeon.* Ellen S. Dodson, HBO Co., Atlanta. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Autoimmune Thyroid Disease.* Stephen Rosenthal, Ped. Endo. Carr Aud., SFGH. 8-9:30 a.m.

TRANSFUSION MEDICINE RESEARCH FORUM: *Review of PCR Symposium.* Paul Ulrich, Lab. Med. & Transf. Med.; Ben Eble, Microbio-Immuno. L 535. 8:30 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call Leonard Florendo, x61073. Medical Center employees call Gemma Reiser, x64846.

OB/GYN & REPRODUCTIVE SCIENCES GRAND ROUNDS. S 1364. 9 a.m.

PSYCHIATRY GRAND ROUNDS: *Biology of Schizophrenia Series: Magnetic Resonance Imaging in Schizophrenia.* Terry Jernigan, Psychr., UCSD. LPPI Aud. 11 a.m.-noon.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *The Involvement of RNA in Protein Synthesis.* Harry Noller, Bio., UCSC. HSW 301. Noon.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

***Open to the public.**

January 14-27, 1989

MOTHERHOOD & ABORTION

Abortion & the Politics of Motherhood. Lecture by Kristin Luker, Socio., UCB. Sponsored by UCSF Women's Resource Center. Toland Hall. Noon-1 p.m.*

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

CNS INJURY & EDEMA RESEARCH CENTER SEMINAR: *Mapping Neuronal Activities with C-fos.* Steve Sagar, Neuro. S 758. 4 p.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Hemiparesis Ipsilateral Ataxia.* Frank Sharp, Neuro. S 664. 5-6 p.m.

VOLUNTEER ORIENTATION: To acquaint new prospective volunteers with opportunities available in the Medical Center. M 169. 6-8 p.m. Call x61196.

25 Wednesday

MORNING MEDITATION: Relaxation, meditation, reflection & prayer for ourselves, others & our planet. N 733. 7-7:45 a.m. For more information call the Landberg Center, 564-3515.*

PLASTIC SURGERY GRAND ROUNDS: D & C Conference. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Michele Hinojosa, x61662.

DERMATOLOGY STAFF CONFERENCE: *Trials of a Long-Term Trial: Prevention of Stroke.* Dean Jere Goyan, Pharm. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15 a.m.

ENDOCRINE GRAND ROUNDS: *Perspectives in Autoimmune Thyroid Disease.* Basil Rapaport, Med. M 1486. 8:30 a.m.

AIDS/HIV 1989—OVERVIEW & UPDATE: *Panel: Persons with AIDS/ARC.* Cole Hall. Noon-1 p.m.

BROWN BAG LECTURE SERIES: *From Uptight to All Right! Strategies to Avoid Stress.* Psychologist Jerome Murray. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Cumulative Trauma/Repetitive Motion.* Linda Morse, Occup. Med., Santa Clara Valley Med. Ctr. Santa Clara Valley Med. Ctr. Noon-1:30 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

PHYSIOLOGY/ENDOCRINOLOGY/CELL BIOLOGY/PHARMACOLOGY SEMINAR: *Molecular Aspects of Formation of the Neuromuscular Junction.* John Merlie, Pharmacol., Washington U, St. Louis. HSW 300. 4 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. L 1361. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROPATHOLOGY CONFERENCE: *Histology of Germ Cell Tumors.* Matthew Zarka, Path. M 460. 4:30-6 p.m.

WELCOME TO OUTDOORS UNLIMITED: How to get involved in outdoor adventuring. OU Center, U B15. 7 p.m.*

26 Thursday

MEDICAL GRAND ROUNDS: *Update on Pseudomembranous Colitis.* Joseph Silva, Int. Med., UCD. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Ocular Leprosy.* Jack Whitcher & Bruce Ostler, both Proctor Fdtn. & Oph. Case presentations: *External Disease.* S 214. 8:15-10 a.m.

PEDIATRICS GRAND ROUNDS: *Birth Defects in California: What Are the Trends?* Susan Fergusen, CA Birth Defects Monitoring Prog. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Occupational Somatoform Disorders.* Carroll Brodsky, Psychr. Carr Aud., SFGH. 9:15-10:45 a.m.

PRIMARY CARE LECTURE SERIES: *Dementia.* Edmund Lonergan, Med. *Angina.* James Srebro, Med. A 455. 10 a.m.-noon.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Model of the Muscarinic MI Receptor Based on a Model of Rhodopsin.* Graham Smith, Merck, Sharp & Dohme. S 1364. 11 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

AIDS/HIV 1989—OVERVIEW & UPDATE: *Neurologic Manifestations.* Dale Bredesen, Neuro. Cole Hall. Noon-1 p.m.

ORAL BIOLOGY SEMINAR: *PDGF.* Jaime Escobedo, Med. & HHMI. S 664. Noon.

PROCTOR FOUNDATION SEMINAR. S 318. Noon.

SFGH FAMILY PRACTICE GRAND ROUNDS: *Current Approaches to Cardiovascular Risk Factor Modification.* David Siegel, Int. Med., SFGH; Norman Hearst, Fam. & Comm. Med. Carr Aud., SFGH. 12:10-1 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

CRI-HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Genetic Analysis of Familial Incidence in Sporadic Melanoma.* Nicholas Dracopoli, Cancer Res. Ctr., MIT. M 1296. 1 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Abdominal Pain in AIDS Patients.* Mitch Katz, Med. A 455. 4:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Management of Neurogenic Bladder: An Overview.* Edward J. McGuire, Uro., U Michigan. M 460. 4:30-6 p.m.

RADIOLOGY GRAND ROUNDS: *Neurocardiology—Scintographic Applications.* Michael Dae, Med. & Radiol. HSW 301. 5:15-6:15 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 303. 5:15-6:30 p.m.

COLE HALL CINEMA: *Dead Ringers.* A horrifying Jeremy Irons as twin doctors in love with the same woman. Children under 14 $2; UCSF students & employees, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Free Tissue Transfer in the Skeletal Trauma Patient: The USC Experience* or *Is There Microsurgery South of the Tehachapis?* Randy Sherman, Plast. & Ortho. Surg., USC. Faculty/Alumni House. Dinner 6 p.m. Lecure 7 p.m. $20. Call x63062 for reservations.

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A116. 6 p.m.*

COMMUNITY HEALTH TALK: *Teens & Health Series: Teen Suicide & Depression.* Lynn Ponton, Psychr. HSW 302. 7-8:30 p.m. Call x63206.*

27 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE: *Child Abuse Prevention Programs for Pre-Schoolers: A Developmental Perspective.* Social worker Nina W. Nyman. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Free Radicals from Hydroperoxide-Cytochrome P450 Interactions.* John A. Thompson, Pharm., U Colorado. S 1364. 11 a.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *Holotropic Breathing.* Igor Weisz. N 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

Working Mothers Support Group. For mothers at UCSF with children 18 months or younger. L 192. Tuesdays. Noon-1 p.m. For more information call Nicole Child, x68900 or Emanuelle Gomez, x68279.

WORKSHOPS
For campus women & the general public. Fees on sliding scale. Pre-registration required.*

Choice or Chance? Career Strategies for Women at Midlife. C 130. Sat., Jan. 21. 10 a.m.-1 p.m. $15-$30.

Breaking Down the Barriers: Building Alliances. S 758. Thurs., Jan. 26. 5-8:30 p.m. $10-$25.

Feeding the Hungry Soul: Dealing with Compulsive Overeating. C 130. Sat., Jan. 28. 11 a.m.-2 p.m. $10-$20, but no one turned away for lack of funds.

TEAR GAS CLASSES

Tear gas certification by UCSF Police Dept. Personal Safety Program. Held in the Personnel Conference Rm., 1350 7th Ave. $12. Pre-registration required. Call x65683.*

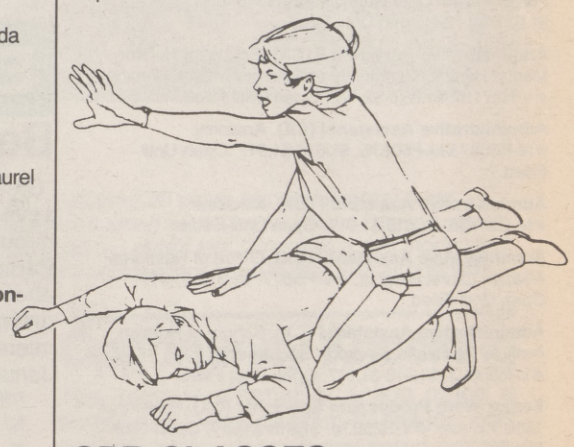

Tues., Jan. 24 & Mar. 21. 6-9 p.m.
Sat., Feb. 18 & Apr. 22. 9 a.m.-noon.

STRESS MANAGEMENT

Two-part seminar designed to decrease anxiety and improve coping skills. Sat., Feb. 4 & 11. 9 a.m.-1 p.m. Call David Bezanson, x66957.*

HELP ELIMINATE SCHEDULING CONFLICTS

In order to help the campus avoid conflicts in scheduling important events, the News & Public Information Services Department has a computerized calendar. It is suggested that faculty, students and staff call x61541 when they are planning an event to make sure nothing has been scheduled for that date. Please note that in order to reserve campus conference rooms and auditoriums, it is still necessary to call Millberry Union at x62571, Room Reservations at x64436, Faculty/Alumni House at x64723, Laurel Heights at x68100 or the individual school or department.

CPR CLASSES

UCSF CPR Center's 3-4 hour course in basic cardiopulmonary resuscitation. Sat., Jan. 21, Feb. 18 & Mar. 4. Thurs., Jan. 26. Mon., Feb. 6. Fri., Mar. 17. Held in N 229 beginning at 9 a.m. $20. $5 discount on Jan. courses for UCSF employees & families. For information & registration call x61817.*

WATTS READS POETRY JAN. 19

You thought media doc David Watts' talents were limited to radio and TV? Check this: He'll read his latest poetry on Thursday, January 19, at the Coffee Mill in Oakland. 8 p.m.*

Benefits/Personnel

Eligibility for Savings Program Expanded

Eligibility for participation in the Tax-Deferred 403(b) and After-Tax Contribution Plans has been expanded to include all employees, with the only exception being employed students who normally work fewer than 20 hours a week.

The Tax-Deferred 403(b) Plan allows you to make pre-tax contributions, with taxes on contributions, interest and any earnings deferred until funds are withdrawn.

The After-Tax Plan allows you to make contributions through payroll deduction on an after-tax basis, with taxes on interest and earnings deferred until funds are withdrawn.

If you're interested, your department's benefits rep can help you get enrolled.

Yes, Health Net Members, You *Can* Use the UCSF Pharmacy

You may remember reading in the last issue of *Newsbreak* that as of January 1, the UCSF pharmacy no longer was included in the list of places that would accept your new Health Net pharmacy ID card.

Take note: As of January 6, the UCSF Pharmacy went back on the list. As that paper was going to press, UCSF people were in the final stages of negotiations with Health Net to get our pharmacy included, as a convenience to UCSF employees.

To review, your new ID card is good at Walgreen's, Longs, Thrifty, Thrifty Jr., Sav-On and certain independent pharmacies, *including* the UCSF Pharmacy. If you have questions about where you can go, call 800-543-5286.

Did You Check Your Paycheck?

Did you check your first paycheck in 1989 to make sure your open enrollment actions were correctly reflected? When you check your insurance deductions, remember that most premiums, including disability and life insurances, are adjusted each year as of January 1. Also remember, the dental and vision insurance alternatives no longer apply. Eligible employees automatically are enrolled in single-party coverage instead. If you have any questions, start by asking you department's benefits rep.

When to Expect W-2s?

According to Payroll's Phil Ruttenberg, you'll receive your W-2 sometime before January 31—but probably after January 20.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of November 30, 1988):

- *Accumulation Unit Values*
  Equity Fund: $50.58 (1.9%)* (15.88%)**
  Bond Fund: $32.89 (1.3%)* (11.07%)**
- *Monthly Factors*
  Savings Fund: .0069 (8.62%)***
  Money Market Fund: .0062 (7.67%)***
  GIC Fund: .0071 (8.90%)***

*Percentages represent change in unit value from previous month.

**Percentages represent total percentage increase over previous 12-month period.

***Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Key to union codes:
AFSCME: CX—Clerical and Allied Services

Computer Operations

Computer Operator (TX). Computer Center. #V-H56393. $9.73-$11.55/Hr. Open Until Filled.

Health Care

Occupational Therapist II. General Surgery - SFGH. #M-L55160. $2,825-$4,242. Open Until Filled.

Physician's Assistant. Renal Center - SFGH. #M-L61909. $2,567-$3,850. Open Until Filled.

Registered Respiratory Therapist (EX). Respiratory Therapy/Anesthesia - SFGH. #H-A60532. $2,330-$2,809. Filing Deadline: 01/18/89.

Clinical Nurse I/II (NX). School of Nursing: Physiological Nursing. #V-H60811. $14.76-$16.99 or $15.48-$17.80/Hr. Open Until Filled.

Clinical Nurse I/II (NX). School of Nursing: Physiological Nursing. #V-H60812. $14.76-$16.99 or $15.48-$17.80/Hr. Open Until Filled.

Hospital Laboratory Technician I (EX). CVRI. #M-L69605. $2,145-$2,579. Filing Deadline: 01/18/89.

Hospital Transfusion Program Assistant II (EX). Laboratory Medicine. #M-L61174. $1,823-$2,177. Open Until Filled.

Hospital Pharmacy Assistant I (EX). Pharmaceutical Services. #V-S62052. $9.43-$11.16/Hr. Filing Deadline: 01/18/89.

Administrative/ Professional

Programmer Analyst III. Administrative Information-Systems - CED. #V-H50853. $3,104-$4,667. Filing Deadline: 01/18/89.

Administrative Analyst . Office of Research Affairs -Laurel Heights. #V-H5676. $2,333-$3,500. Open Until Filled.

Public Administrative Analyst. School of Nursing: Institute for Health & Aging - Sacramento, CA. #V-H69604. $2,333-$3,500. Filing Deadline: 01/18/89.

Academic

The Senior Vice Chancellor - Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Affairs, Room U 162, UCSF, (415)476-2529. Positions are located on the Parnassus campus unless otherwise noted.

Full Professor. Stomatology. #D-110. Open until filled.

Assistant Professor. Division of Dental Hygiene & Preventive Dentistry, Dental Public Health & Hygiene. #D-111. Filing Deadline: 2/1/89.

Assistant Research Immunologist. Transfusion Research Program, Laboratory Medicine. #M-858. Open until filled.

Associate Clinical Professor. Emergency Services, Medicine, SFGH. #M-859. Open until filled.

Assistant Professor in Residence. Epidemiology & International Health, VAMC. #M-865. Filing Deadline: 8/30/89.

Assistant Professor in Residence. Magnetic Resonance Unit, Radiology, VAMC. #M-867. Open until filled.

Assistant/Associate Professor in Residence. Surgery, VAMC. #M-869. Open until filled.

Assistant/Associate/Full Clinical Professor. Emergency Services Division, Medicine, SFGH. #M-870. Open until filled.

Assistant Professor in Residence. Cardiology Section, Medicine, VAMC. #M-871. Open until filled.

Assistant Professor in Residence. Electrophysiology Section, Division of Cardiology, Medicine. #M-872. Open until filled.

Assistant/Associate Professor. Physiology. #M-873. Open until filled.

Assistant Clinical Professor. Ambulatory Care Division, Pediatrics. #M-874. Open until filled.

Assistant Professor in Residence. Lung Biology Center, Medicine/Pharmacology, SFGH. #M-875. Open until filled.

Associate/Full Professor (in Residence, Clinical, or Ladder Rank). Pediatrics. SFGH. #M-876. Open until filled.

Assistant Clinical Professor. Ambulatory Care Division/Well Baby Nursery,Pediatrics. #M-877. Open until filled.

Assistant Research Molecular Biologist. Laboratory Medicine. #M-879. Open until filled.

Assistant Professor in Residence. Medical Genetics Division, Pediatrics. #M-880. Open until filled.

Associate/Full Professor in Residence. Anesthesiology. VAMC. #M-883. Open until filled.

Assistant Clinical Professor. Cancer Research Institute, Medicine. #M-884. Open until filled.

Assistant Research Psychologist. Division of Adolescent Medicine,Pediatrics. #M-885. Open until filled.

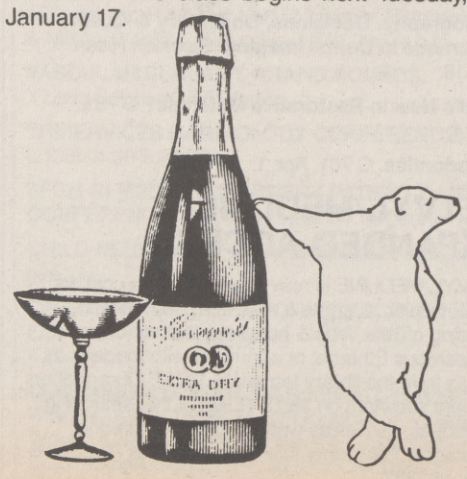

Full Professor. Physiological Nursing. #N-131. Open until filled.

Assistant Adjunct Professor. Pharmaceutical Chemistry. #P-45. Openuntil filled.

EMPACT!

Become an Oenophile at Special Rates

"Great Wines of the World" is just one of several self-enrichment courses offered through EMPACT! at special employee rates. Participants will taste, compare and learn about wines from all over the world. But hurry and call P.R.O. Recreation at x61800 if you're interested! The class begins next Tuesday, January 17.

- **More classes at special EMPACT! rates:** Beginning Photography, Speed Reading, Learning to Read Music, Knitting, and the famous "Lighten Up" weight management program. Call x61800 for further information. All classes begin during the next two weeks.
- **Visit the only mainland seal colony** during their mating season! Take a tour with Outdoors Unlimited on Saturday, January 21. The tour begins at 2:15 p.m. at Ano Nuevo state beach, about one hour south of San Francisco along Highway 1 (transportation not included). Call x62078 for details.
- **You and your sweetheart are invited** to attend a lavish Valentine's buffet at the California Culinary Academy (for only $35 a person) on Friday, February 10. Make your reservation at the MU Central Desk.

We ran this same picture of Alan Kinghorn last year when he won the UCSF Golf Tournament. We're running it again, because he won again, he looks the same, and he keeps the same trophy. This is so easy! Alan, who works at Laurel Heights and is associate dean of the School of Pharmacy, is also the newly elected president of the club. If you're interested in joining, call him: x68020.

Chaplain Rod Seeger: Household Name

This past fall, Medical Center Chaplain Rod Seeger (far right) was introduced to five million households across America.

Rod, who is interdenominational in his work at the Medical Center, is a Lutheran in private life. Recently the Lutheran Church put together a mass mail piece called "I Am the ELCA" (Evangelical Lutheran Church in America), depicting a breadth of activities undertaken by members of the church. Rod was chosen to represent hospital chaplains.

"I think I was selected because, for one, they wanted someone from the West Coast," says Rod. "And no doubt they were looking for someone who could show several aspects of chaplaincy. I also teach—we have an active pastoral education program here at the Medical Center. And in addition to my work here, I serve as a chaplain for Lutheran Social Services."

The photo to the right is from the first of two pages in the brochure featuring Rod (pictured far right). The accompanying text reads, "For Chaplain Rod Seeger, there remains the memory of Mary, a Japanese American who had been interred in a detainment camp during World War II. Now an aged one, she was ready to die. This frail but radiant woman with sparkling eyes brought Seeger two requests—'Help my brother understand that it is time for me to go, and read the 23rd psalm as I pass to the other side.'"

The second page goes on to say: "After serving 13 years in parish ministry, Rod Seeger was called to minister at the University of California, San Francisco Medical Center. Along with hospital professionals, he and seminary students such as Glenn Chase of Pacific Lutheran Seminary make their rounds. In preparation for parish ministry, Chase is enrolled in a clinical pastoral education course under Seeger's supervision.

"Together, chaplain and student interact with people at critical, life-changing moments, ministering to patients and staff alike. Theirs is a ministry of word and sacrament, prayer and celebration, understanding. It is the ministry so gratefully received by Mary and her family as Rod Seeger read the familiar words of the psalmist that last morning."

Has the mailing made any difference in his life? "Yes!" he says. "It seems that everywhere I go, some mention is made." Not long after the brochure went out, he was asked to speak to a gathering of campus pastors from all over the western states, coming up at the end of January. "I didn't ask, but that invitation may have been another one of the side effects."

Chaplain Seeger Gives Us a Few Reasons to Be Grateful It's 1989

You may find interesting this authentic list of nurses' duties from a hundred years ago, provided by Med Center Chaplain Rod Seeger (reprinted from our nursing department's "Nursing News"):

"In addition to caring for your 50 patients, each nurse will follow these regulations:

- Daily sweep and mop the floors of your ward, dust the patient's furniture and window sills.
- Maintain an even temperature in your ward by bringing in a scuttle of coal for the day's business.
- Light is important to observe the patient's condition. Therefore, each day fill kerosene lamp, clean chimneys and trim wicks. Wash the windows once a week.
- The nurse's notes are important to aiding the physician's work. Make your pens carefully; you may whittle nibs to your individual taste.
- Each nurse on day duty will report every day at 7 a.m. and leave at 8 p.m., except on the Sabbath, on which day you will be off from 12 noon to 2 p.m.
- Graduate nurses in good standing with the director of nurses will be given an evening off each week for courting purposes or two evenings a week if you go regularly to church.
- Each nurse should lay aside from each payday a goodly sum of her earnings for her benefits during her declining years so that she will not become a burden. For example, if you earn $30 a month, you should set aside $15.
- Any nurse who smokes, uses liquor in any form, gets her hair done at a beauty shop, or frequents dance halls will give the director of nurses good reason to suspect her worth, intentions and integrity.
- The nurse who performs her labors and serves her patients and doctors faithfully and without fault for a period of five years will be given an increase by the hospital administration of five cents a day, providing there are no outstanding hospital debts."

A Couple of Favorites Waved Good-Bye Late in '88

Based on the size of the crowds at both events, chances are you were there to personally bid farewell to one or both of these well-known souls. Moffitt cafeteria cashier Bernice Stewart, pictured above left with her colleagues Fely Acosta (left) and Winnie Lambert (right), retired in December after 31 years in Nutrition & Dietetics. Above right, OR's Lottie Harris was honored on the occasion of her departure after 26 years, including 20 years as neurosurgery head nurse. "Lottie basically built the neurosurgery service along with Charlie Wilson," says current neurosurgery head nurse Maureen Slusarz, pictured to Lottie's left. "She was a role model and teacher to many of us." To Lottie's right is assistant neurosurgery head nurse Julie Broderson.

You're Invited to "Meet the Director" on January 24

If you're interested in participating in a round table with Med Center Director Bill Kerr, here's your chance. The next "Meet the Director" session is scheduled for Tuesday, January 24, from 8 to 9 a.m. in M 169. These informal meetings give you the opportunity to meet the friendly and frequently funny Bill Kerr, and discuss whatever work-related issues are on your mind. Check with your supervisor to see if your department has been asked to send a representative. If not, call Gemma Rieser at x64846 to see if there are any extra spaces.

Nominations Due for Distinguished Nurse

Do you know someone in nursing at UCSF who has made an outstanding contribution to patient care and the nursing profession? Why not nominate this individual for the 1989 Distinguished Nurse Award? Your nominee can be engaged in nursing practice, education or administration; and your basis for nomination can be tied to someone's particular project, or it can relate to someone's approach to their work. You are welcome to nominate yourself. Just make sure you do so by next Wednesday, January 18, by sending your criteria to Rosanne Rappazini, Box 0210. If you need a brochure with instructions, call Rosanne at x61405.

A Place to Smoke

Message from Bill Kerr: "Everyone has been extremely cooperative since the institution of the 'Smoke Free' policy inside our facilities. It is very important, however, that the main entrances to the Medical Center are well maintained and accessible to the public.

"Recognizing the need for an area close to the Medical Center to be set aside for smokers, we have provided a sitting area and ashtrays in the walkway between LPPI and Long Hospital (behind the two conference rooms, L 191 and L 192). If you wish to smoke, please do so here instead of the area under the covered deck in front of Emergency, near the entrance to the Moffitt lobby, or the entrances to Radiation Oncology and Physical Therapy. Thank you for your cooperation."

Opportunity Knocking

The campus affirmative action office is developing a pilot program to provide work experience for under-represented groups, defined as blacks, Hispanics, Asians and American Indians.

"We really want to get behind this in the Medical Center," says Administration's Kathy Balestreri. In other words, if you know a high school or college-age individual who could benefit from this program, please contact Kathy at x62316, or the affirmative action office at x68724.

Likewise, if your department could accommodate a program participant, either as a funded or volunteer position, please call one of the above.

Midwives Mark a Milestone: 1,669 Babies Delivered

When little John Kurhanewicz was born the other morning, he became the 1,669th baby to be delivered by a midwife here at the Medical Center. Furthermore, the midwifery program is celebrating nine years of existence as a part of our obstetrics services.

Are these strange numbers to be celebrating?

"Not at all!" says Sonia Kurhanewicz, John's mother. "If you ask me, you couldn't pick a better time."

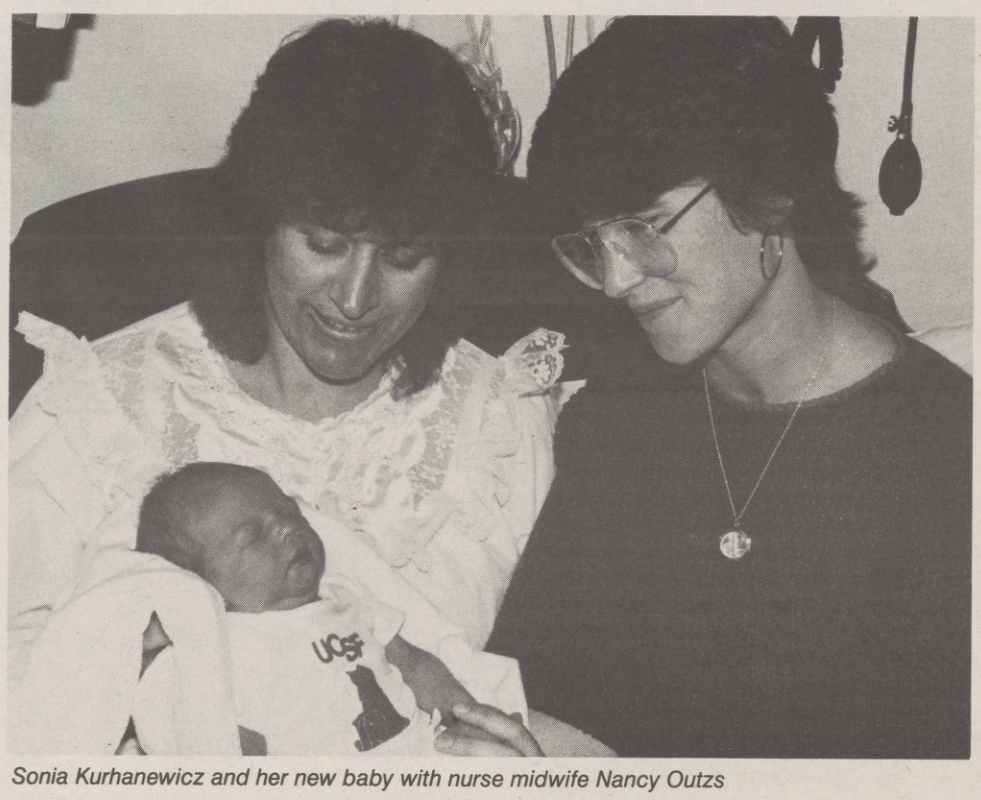

This was Sonia's third baby, but the first time she had used a midwife. Her first two were born in Florida, where, she says, the idea never occurred to her. "I was never presented with the option until we came here." The Kurhanewicz's are living in San Francisco while husband John is doing postdoctoral research at UCSF.

"Midwifery was presented to me as a philosophy that stressed a strong personal relationship between midwives and the mother thoughout the pregnancy. I understood that one of the midwives would be with me during my entire labor period. I was healthy and had had two healthy pregnancies prior to this. I decided to go with the midwives. It turned out to be a really good decision."

"We're specialists in normal births," says Nancy Outzs, one of four certified nurse midwives associated with ACC's Ob/Gyn faculty practice. In addition to Nancy, the midwives include Elinor Hein, Gina Jensen-Hill and Linda Robrecht—all RN's with additional training in obstetrics. "Pregnancy is not an illness," says Nancy. "We find that what most healthy mothers want and need is not so much a highly skilled surgeon, but someone to hold their hand, help them through the process of pregnancy, teach them what they need to know about being a mother, and be there during the birth."

"There are quite a few myths about midwives," she continues. "For instance, many people believe that if you choose obstetric care from a midwife, you won't have access to a physician if needed; or you can't have the same analgesic or anesthesia options. Neither of these are true. We work in tandem with—rather than separately from—a large group of specialists. We're constantly combining our skills to provide the best kind of care for the individual.

"I think there are a lot of people—even in our own UCSF community—that don't even know the midwife option exists here. Now that we're celebrating our 1,669th birth, it's time for people to find out!"

Sonia Kurhanewicz and her new baby with nurse midwife Nancy Outzs

Cancer Survivors Celebrate

On the surface, it may have appeared to be your basic jovial gathering to celebrate the holidays, but the celebration actually had much deeper significance. The guests of honor at this December event sponsored by CRI physicians and the staff of 11 Long were all adult survivors of cancer.

"We've been wanting to do this for a long time," says 11 Long head nurse Cathy Cebulski. "There have been similar events for other patient groups, including pediatric oncology patients, but we've never had anything for adult oncology patients. This year, we finally got in and put it together."

Several dozen patients, plus family members and staff took part in the reunion. Most of the patients who attended are survivors of leukemia or other blood-related cancers. "These are the types of patients we have for extended periods and get to know," explains Cathy. Currently, the longest-surviving cancer patient on their records was diagnosed in 1978. The statistics speak to the fact that in the past 20 years, and particularly in the past 10, she explains, treatment for leukemia has become much more sophisticated and the survival rate has greatly improved.

Based on this fact, can we expect the guest list to grow if this becomes an annual event?

"That could be," says 11 Long nurse Claire Alexander, who co-planned the party with Cathy. "But one thing's for sure. It's definitely going to become an annual event. We already have a contribution toward the next year's reunion from one of our patients who attended this one."

"I told myself that if I won the battle against this disease," says Sheryl Hawks of San Francisco (center), who was diagnosed with leukemia in 1985, "the first thing I was going to do was buy a fur coat and a new convertible. Sheryl, shown here with 11 Long staff members Claire Alexander (left) and Cathy Cebulski, arrived at the party in her convertible—and wearing her new coat.

Perhaps you remember this duo from the cover story in the September '87 issue of the UCSF Magazine. *The article told how Katrina Hebert of Ukiah first arrived here very sick with leukemia—and 26 weeks pregnant. She underwent a modified course of chemotherapy, and with her disease in remission, give birth to Nicholas. Six weeks later she returned for a bone marrow transplant. A year and a half later, here are mother and son (with Claire)—healthy, happy and ready for a party.*

Your Department Has a Big Wish List But Very Little Money? Talk to the Auxiliary

If your department has a special project you'd like to have funded by the Auxiliary, get your proposal together. The request forms have been sent out, and are due back in the Auxiliary office, Box 0208 or M 182, by Tuesday, January 31.

The cost of your project can be up to $25,000, but it must directly benefit patients and/or families. Equipment and furnishings, for instance, are valid requests for Auxiliary funding. Salaries and research projects are not.

To give you examples of the kind of proposals they accept, some previously funded projects have included:

- 18 sleeping chairs that convert to beds for family members staying the night.
- Six reclining chairs designed for immobile and elderly patients
- $25,000 toward the new meditation room in the lobby.
- A set of educational toys for the ACC pediatric practice
- Amenities for the LPPI children's inpatient program, including TV, stereo and records.

Call x64906 if you have questions or need a form.

Last Call for Entertainment Books

The Auxiliary still has a few "Entertainment '89" books left, on sale now for $35 in the Auxiliary office, M 182.

For your money, you get dozens of two-for-one or 50% off deals at local restaurants, plus many discounts on all varieties of entertainment. And for every book you buy, the Auxiliary gets $6. Call x64906 if you plan to stop by.

Laundry & Admitting Take the Lead in United Way Participation Increase

The results of November's United Way campaign show big increases in participation in several Medical Center departments, especially in Admitting and Laundry/Linen Services. Admitting went from 12.5% participation in 1987 to 31.3% in 1988; and the Laundry from 12.8% to 31.8%.

Other departments with major increases included Environmental Services (32.2% in 1987 to 44.2% in 1988); Hospital Finance (56.7% to 65.2%); Clinical Laboratories (45.5% to 55.8%); and Hospital Information Systems (41.9% to 50%).

Overall, 39.3% of the Med Center population participated in this year's campaign (compared to last year's 37.6%). Campuswide, 40% participated this year, 38% last year.

Dollar-wise, this year's campaign in the Medical Center brought in $56,553 toward the campus total of $237,986.

You can compare this to last year's totals of $50,595 for the Medical Center and $215,000 for the campus. See page one for more information on campus tallies.
